I am a daughter of Ban Raja.

I was born in the forest.

We lived in the forest.

We have not our parents.

We live in a village.
The men come to learn our language.

I am a King and I became old.

There is none to spek our language.

We lived in the forest making houses.
In the houses of leaves.

We had no houses; we had to starve.

We lived starving.

Many many village people.

All man this village - LOC *** - sit - *** 1PL
All the people lived in the village and we went to the village.

We lived in the village.

Many people went to different places and they died in different places.

Who does sit?
We had not father and mother.

We lived in our parents home.

It was not easy.

There were not parents.

Only we lived.
